## DETAILED ACTION

### *Allowable Subject Matter*

Claims 1-7, 9-12, and 14-27 are allowed in view of the Applicant's arguments (Response filed 01/09/2007), the prosecution history and the cited prior art of record. The independent claims recite target device discovery including a master initiator periodically sending out a multicast to slave initiators, and in response, the slave initiators each transmitting a registration by unicast to the master initiator, the master determining if a device has previously registered and if so, re-registering the device, and removing a previously registered target device if it has not re-registered within a re-registration interval, and the master initiator sending out a next multicast signal including information regarding the previously registered target device when the previously registered target device is determined to have re-registered, which, in addition to the rest of the claim limitations, are distinguished from the prior art. For support, see Instant Specification (pg 7, line 11-14, 24, pg 11, lines 18-23, pg 12, lines 14-23, pg 13, lines 7-8, pg 14, lines 23-24, pg 24, lines 20-23, pg 26, lines 28-31pg 28, lines 19-20, pg 32, lines 9-15)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
